

## Update Radio Spider

The Radio Spider provides a simple download facility for frequent radio program downloads. The Radio Spider supports FTP and HTTP protocols for downloading of the audio files. To support Crown Financial Ministries' new Downloadable Media Store, affiliates using The Radio Spider need to change the protocol and location of audio program files.

### Overview of Changes

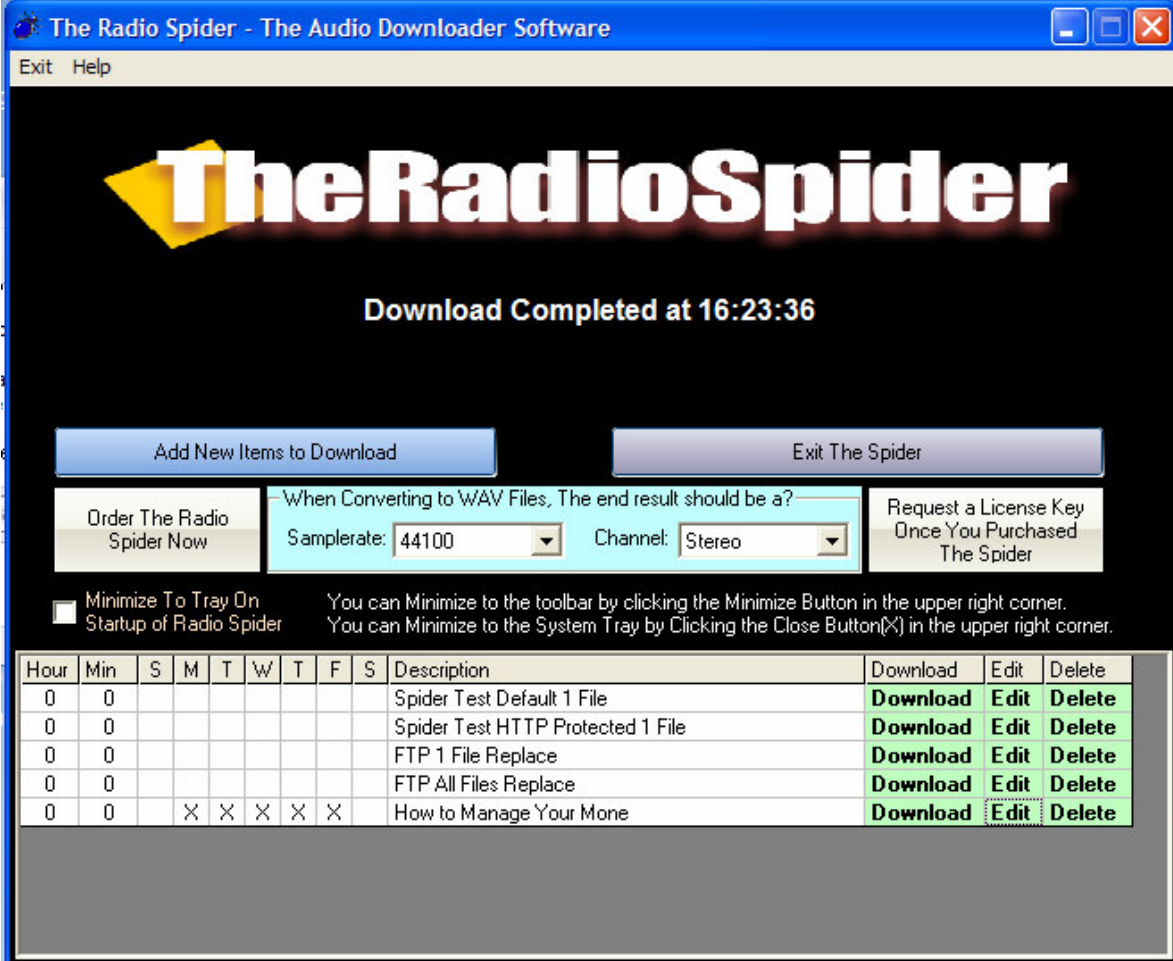

The protocol and location for downloading radio programs from Crown Financial Ministries' needs to change to the following:

- Change protocol from FTP to HTTP
- Change URL for file from <ftp://staticftp.streamos.com/radiodl/files/radio/> to <http://media.crown.org/radio/programs/>
- Each of the radio programs will be listed in their appropriate sub-folder and filenames will use the existing filename convention
  - moneylife

## Change Protocol and File Location

### 1. Start The Radio Spider

- Locate the radio program to modify
- Click Edit

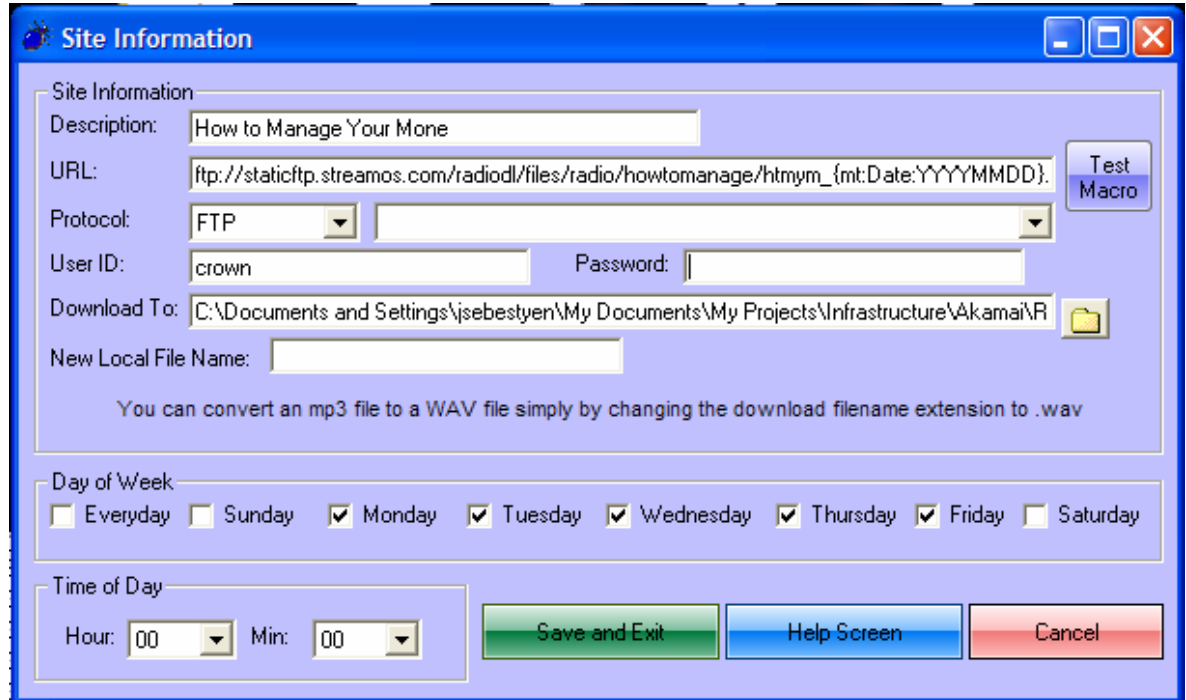

The screenshot shows the 'The Radio Spider - The Audio Downloader Software' window. The main area displays 'The RadioSpider' logo and a message: 'Download Completed at 16:23:36'. Below this are buttons for 'Add New Items to Download' and 'Exit The Spider'. There are also sections for 'Order The Radio Spider Now', conversion settings (Samplerate: 44100, Channel: Stereo), and a 'Request a License Key' button. A checkbox for 'Minimize To Tray On Startup of Radio Spider' is present with explanatory text. At the bottom, there is a table of items to download.

Hour	Min	S	M	T	W	T	F	S	Description	Download	Edit	Delete
0	0								Spider Test Default 1 File	Download	Edit	Delete
0	0								Spider Test HTTP Protected 1 File	Download	Edit	Delete
0	0								FTP 1 File Replace	Download	Edit	Delete
0	0								FTP All Files Replace	Download	Edit	Delete
0	0		X	X	X	X	X		How to Manage Your Money	Download	Edit	Delete

## 2. Review Existing Configuration

- Look at the URL, the Protocol Box, the User ID and Password box

The screenshot shows a 'Site Information' dialog box with the following fields and controls:

- Description:** How to Manage Your Mone
- URL:** ftp://staticftp.streamos.com/radiodl/files/radio/howtomanage/htmym\_{mt:Date:YYYYMMDD}. (A 'Test Macro' button is located to the right of this field.)
- Protocol:** FTP (selected in a dropdown menu)
- User ID:** crown
- Password:** (empty text box)
- Download To:** C:\Documents and Settings\jsebestyen\My Documents\My Projects\Infrastructure\Akamai\ (A folder icon is to the right.)
- New Local File Name:** (empty text box)
- Day of Week:** A row of checkboxes for Everyday, Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, and Saturday. Monday through Friday are checked.
- Time of Day:** Two dropdown menus for Hour (00) and Min (00).
- Buttons:** Save and Exit (green), Help Screen (blue), and Cancel (red).

Below the 'Download To' field, there is a note: "You can convert an mp3 file to a WAV file simply by changing the download filename extension to .wav"

### 3. Modify the URL

- Change the beginning part of the URL to use <http://media.crown.org/radio/programs>
- Choose HTTP in the Protocol drop-down list box
- Clear the 'User ID' and 'Password' fields
- Click 'Save and Exit'

URL:	<input type="text" value="http://media.crown.org/radio/programs/howtomanage/htmym_{mt.Date:YYYYMMDD}.mp3"/>		
Protocol:	<input type="text" value="HTTP"/>		
User ID:	<input type="text"/>	Password:	<input type="text"/>
